

Python Portfolio — Improvement Recommendations

Project: Python Portfolio

Technology: Python, FastAPI, SQLAlchemy, SQLite, Pydantic, JWT

Location: /home/dominic/Documents/python-portfolio

Report #: 19/20

Short-term

- Add rate limiting to all modules
- Add background task runner
- Write tests for each module

Medium-term

- Switch to PostgreSQL for production
- Add proper logging middleware
- Add request ID tracing

Long-term

- Split into microservices if needed
- Add GraphQL federation
- Add real-time WebSocket support
