

Python Portfolio — Database Schema

Project: Python Portfolio

Technology: Python, FastAPI, SQLAlchemy, SQLite, Pydantic, JWT

Location: /home/dominic/Documents/python-portfolio

Report #: 4/20

Database Engine: SQLite

Shared User Model

```
class User(Base):  
    id: int (PK)  
    email: str (unique)  
    username: str (unique)  
    hashed_password: str
```

Plus module-specific tables for shortener, chat, queue, and RAG modules. Schema auto-created via `Base.metadata.create_all()` on startup.
