

# Python Portfolio — Code Quality Assessment

---

**Project:** Python Portfolio  
**Technology:** Python, FastAPI, SQLAlchemy, SQLite, Pydantic, JWT  
**Location:** /home/dominic/Documents/python-portfolio  
**Report #:** 11/20

| Dimension      | Score | Notes                          |
|----------------|-------|--------------------------------|
| Readability    | 8/10  | Modular architecture           |
| Typing         | 6/10  | Uses Pydantic but inconsistent |
| Error handling | 6/10  | Standard FastAPI exceptions    |
| Modularity     | 9/10  | 5 modules + shared auth        |
| Testing        | 0/10  | No tests found                 |
